

CM-AF500 Series LED Annunciators

Camden's CM-AF500 Series illuminated annunciators are designed to provide critical messages to building occupants.

When not illuminated, the sign (text and/or graphics) is invisible. When illuminated, the text/graphics are highly visible - even in bright daylight. CM-AF500 series signs and push buttons are weatherproof and vandal resistant.

Field selectable 12/30V AC/DC operation allows the sign to be used in a variety of low voltage applications, including automatic door, access control and other low voltage systems.

Features

- **CM-AF500:**
(6) message insert labels included, English, French and Bilingual
- **CM-AF503:**
